Dice Review

Set up: Using your textbook or a list provided by your teacher, write one vocabulary word after each number in the “Vocab Terms” chart. Then, get 2 dice.

To Play: Roll the dice. The total on these dice will determine which vocab term you are choosing. Then roll one of the dice again to determine which “Action” you will take. For the compare & contrast action, compare the term chosen to another term in the unit. Using the term and the action, fill in the first row of the chart on the following page.

Example:

12- meiosis

6- Compare & Contrast

Vocab Term	Action	Answer
Meiosis	Compare & Contrast	Meiosis is like mitosis because they are both a type of cell division. Meiosis is different from mitosis, however, because it occurs in gametes and mitosis occurs in body cells.

Vocab Terms		
	2-	3-
4-	5-	6-
7-	8-	9-
10-	11-	12-

Actions
1- Describe
2- Draw
3- Compare & Contrast
4- Describe
5- Draw
6- Compare & Contrast
